CONTRACTS LET FOR \$150,000 MACHINE SHOP

Patterson Foundry Will
Erect Addition In
East End.

60-DAY JOB
Potters' Lumber And
Hiner Steel Companies
Low Bidders.

Contracts for the erection of
a \$150,000 addition to the East
End plant of the Patterson
Foundry & Machine company
have been awarded to the Pot-
ters' Lumber company of East
Liverpool and the Hiner Struc-
tural Steel company of Canton.
It was announced today.

The Potters' company has been
given the foundation, cement and
brick work, while the metal building
will be erected by the Canton firm.
These two companies also hold the
contract for the new factory of the
Patterson Steel Products company,
which is being erected on an adjoin-
ing site.

The addition will provide an ex-
tension for the machine shop, giving
the Patterson company space to in-
crease its production 40 per cent, ac-
cording to R. L. Cawood, president.
About 60 days will be required to
complete the addition which will be
ready for operation in September.
The company's working force will be
increased to about 200 when the ex-
pansion program is completed.

The Patterson company began op-
erations at the East End plant two
years ago, when the two Walnut
street shops were abandoned.

The Masses Like War
Chain Store Growth.
Up Goes Wheat.
Coins in the Coffin.

(Copyright, 1929, by King Features Syndi-
cate, Inc.)

POLITICAL theories differ, in vari-
ous countries, human nature is
the same.
Russia's masses now yell for war
with China, stoning a Chinese con-
sulate, act as men usually do when war
is suggested. A Harvard professor in
his book on the mob said the right
provocation would start a convention
of clergymen on a lynching expedi-
tion.

What can you expect of the masses?
Fighting was implanted in us long be-
fore praying.

FORTY-FIVE chain stores organiza-
tions, in June, did \$236,281,747
business, gaining 23 per cent in
a year.

Sears, Roebuck stand first with
June sales of \$25,747,979; Woolworth
next, \$23,000,000; Montgomery Ward
third, \$21,000,000.

NEWSPAPER publishers are interest-
ed in the policy of General Wood,
a West Pointer, now president of
Sears, Roebuck. He is constantly
building retail stores, promoting them
with newspaper advertising.

Sears, Roebuck, it is said, plan sev-
eral retail stores in all big cities, one
in each smaller city.

WHILE the government thinks
about it, mother nature helps
some farmers by injuring the
wheat crop here and in the Canadian
northwest.

The price of wheat went up Mon-
day, everywhere, Chicago, Winnipeg,
London, Buenos Aires, touching \$1.36
a bushel. The price was 96 cents a few
weeks ago.

It is not so pleasant for those farm-
ers whose wheat is "irreparably ruin-
ed."

RELIGIOUS changes are gradual.
European Christian peasants
still believe in fairies, witches,
evil spirits and charms.

In Mott street, New York, a Chinese
merchant is buried, a Christian
preacher officiating, but two Chinese
bands play outside in the street dur-
ing the funeral, and Chinese mourn-
ers, passing the coffin, drop in coins.
The Bible says nothing about money
after death, but it might come in use-
ful. Everybody here has his hand out,
why not hereafter?

OF Florida's undeserved misfor-
tunes, the worst was the in-
cursion of outside real estate
agents, high winds were unimportant
in comparison.

That great state is the natural win-
ter sun parlor for millions and will
keep going ahead. Nothing will stop
it.

Miami Beach, for instance, has led
a majority of cities in building gains
for this year.

crete manufacturing, has found a de-

POLICE TO BAN LEFT TURNS AT EIGHT CORNERS

New Order Will Become
Effective This
Week.

U. S. 30 CHANGED State Highway Men Change Lincoln Way Signs.

State highway department rep-
resentatives are in East Liverpool to-
day changing the signs for U. S.
Route No. 30, commonly known as
the Lincoln highway.

By the new arrangement, traffic
entering East Liverpool from the
west will pass along Dresden avenue,
through the Diamond, south on Mar-
ket to Third street and east on Third
street to the Chester bridge. When
Smith street, or East Seventh street,
is opened, the route will be along
Smith street to Lincoln avenue
thence along Broadway to Third
street.

The present route of U. S. road No.
30 is through the Diamond to Fifth,
east on Fifth to Broadway, thence
south on Broadway to Third street.

Under the plan, which will become
effective this week, all left turns at
Fifth and Market streets are to be
prohibited. Other left turns which
are to be banned include St. Clair
avenue to Sixth street, off Smith
street through the Diamond at the
Buffalo confectionery corner and two
at Fifth street and Broadway. Traffic
passing east in Fifth street will
not be permitted to turn north in
Broadway, while cars going west in
Fifth street must not turn south in
Broadway.

Southbound automobiles in St.
Clair avenue must turn west on Sixth
street, going to Jackson street in
order to continue south. Drivers
traveling west in Fifth street must
turn south on Walnut, Washington or
Jackson streets as left turns will not
be permitted at Broadway and Mar-
ket streets.

Cables for the new traffic lights in
Sixth street at St. Clair and Dresden
avenues will be stretched tomorrow.

Sedan Reported Stolen.

Five passenger Willys-Knight sedan
belonging to S. D. Nold, Lisbon auto-
mobile dealer, was stolen while
parked in front of the Henderson
Overland sales rooms in Wick ave-
nue, Youngstown, at 8 o'clock last
night. Five minutes after Nold left
the machine a man and woman en-
tered the car and drove away.

Man Is 'King In His Own Home' In Selling Beer, Court Rules

Holds.

DAYTON, O., July 17.—(INS.)
—When a woman manufactures
and sells "home brew" at the
direction of her husband, she is
not guilty of violating the probi-
tion laws.

A man is "king in his own

band is responsible for what oc-

TWO NEWSPAPER MEN FACE JAIL FOR CONTEMPT

Cleveland Editor And
Editorial Writer Are
Found Guilty.

CRITICIZED JUDGE
Seltzer and Matson
Fined \$500, Given
30 Days.

CLEVELAND, July 17.—(INS.) —
Common Pleas Judge Frederick P.
Walther today adjudged Louis B.
Seltzer, editor, and Carlton K. Matson,
chief editorial writer of a Cleveland
afternoon newspaper, guilty of con-
tempt of court and sentenced them to
30 days imprisonment and fined each
\$500 and costs.

The contempt case arose out of an
editorial published in the afternoon
newspaper edited by Seltzer. The editor
criticized Judge Walther for issu-
ing an injunction which restrained
Sheriff Ed Hanratty from interfering
at the Thistledown race track near
here, in his opinion the contribu-
tion system was not a violation of the
law. Hanratty sought to curb the
contribution system of backing horses
there, and later, despite the issuance
of the injunction, the sheriff made
three arrests. Later the charges
against the three were thrown out by
a justice of the peace who claimed
Ohio statutes did not forbid the con-
tribution system.

Newton Baker Will Appeal.
Before finding Seltzer and Matson
guilty, Judge Walther overruled a mo-
tion of their attorney, Newton D. Ba-
ker, former secretary of war, for dis-
missal of the contempt charges.

Although Baker announced that an
appeal would be taken in behalf of
Seltzer and Matson, Judge Walther
issued a call for the sheriff with in-
structions that he take the two news-
paper men into custody at once.

The court declared that the edi-
torial, which appeared in three differ-
ent versions in as many editions last
Thursday, not only obstructed justice,
but attempted to bring the court into
ridicule and disrepute.

Baker rested his defense of Seltzer
and Matson after Judge Walther had
overruled his motion for dismissal.
The defense called no witnesses.

Newspaper Men's Statement.
Immediately following their sen-
tence, Seltzer and Matson issued the
following statement:

"Sometimes situations arise in
fighting for a principle when hazards
must be taken.
"This is a plain case of freedom of
the press to criticize a court order it
regards as lawless. The order, which
is the crux of this case, was an order
which purported to restrain an offi-
cer of the law from doing his sworn
duty.

"We criticized that order. We knew
when we did it that there was a har-
dard. The court's citation followed.

"Thirty days in jail and a \$500 fine
is a small price to pay, if such price
must be paid, in the contest involving
such a principle."

Stay of Sentence Asked.
Seltzer and Matson were taken into
custody by the sheriff and removed
to the county jail in compliance with
the court's order.

The court of appeals is not in ses-
sion, but three of the appellate judges
live in Cleveland. Counsel for the
newspapermen will attempt to get in
touch with one of the judges, it was
stated, and seek to have him stay
execution of sentence until the case
can be heard by the appellate court.

Until a stay of sentence can be ob-
tained Seltzer and Matson must re-
main in the sheriff's custody in the
jail building.

ST. LOUIS PLANE ALOFT 97 HOURS

LAMBERT FIELD, ST. LOUIS,
July 17.—(INS.)—"The St. Louis
Robin," the cloud-clinging Cur-
tiss-Robin monoplane in an en-
durance test to try out the Chal-
lenger air-cooled motor, started its
97th hour and fifth day in the air
at 7:17 a. m. today.

A second plane, "The Missouri
Robin" also bent upon testing the
Challenger engine, was scheduled to
join its fellow in the air some-
time today.

today from a ruling by Probate
Judge William C. Wiseman of
Dayton.

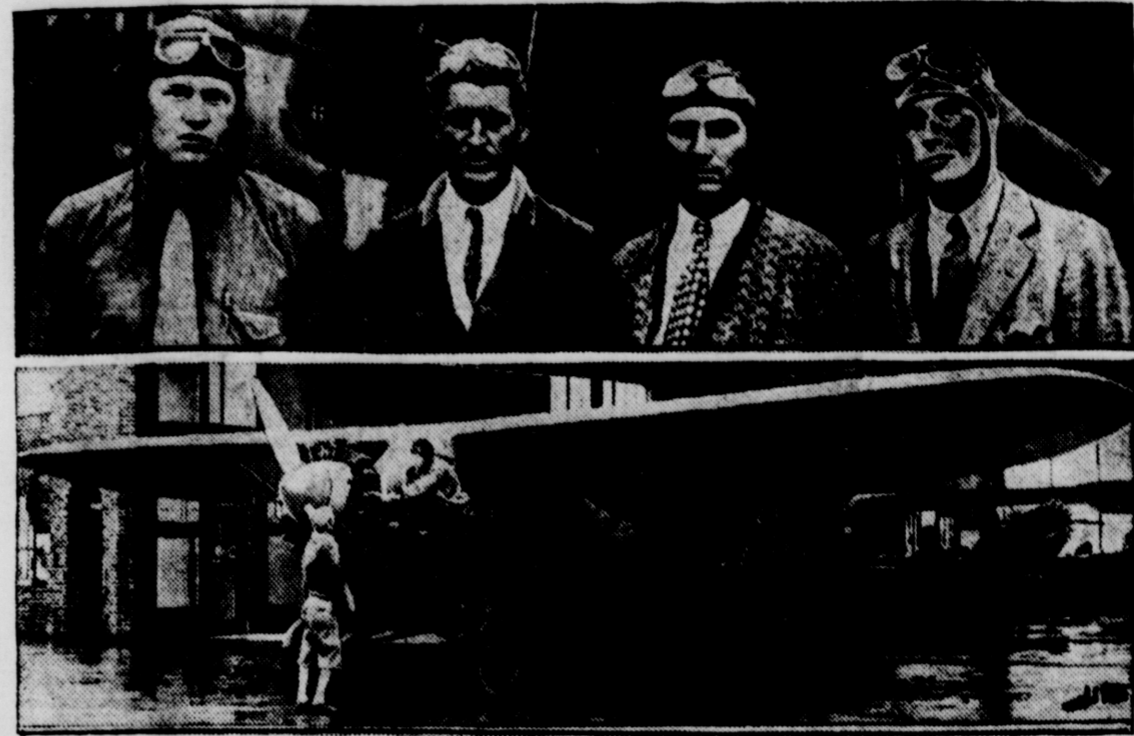

A home here was raided, 45
bottles of beer were seized, and
the woman was arrested.

At the subsequent trial, the
woman pleaded that she had
made the beer at the direction of
her husband.

Judge Wiseman then ruled
that, under established law, the
husband is entirely responsible
for what goes on in his home.

The ruling is a precedent in
the annals of dry cases here.

CLEVELAND FLIERS WANT ENDURANCE RECORD

Following close upon the heels of the 246½ hour endurance record made by the California fliers in the "Angel-
eno," two Cleveland fliers, W. B. Atwell, extreme left, and Edwin B. Taylor (standing next to him), will attempt to
break the above record in their Fairchild plane at the national air races in Cleveland, O., with Hal E. Dungan (third
from left) and Barney Rawson, extreme right, forming the refill crew.

TOM GREENE WINS SPEED TITLE IN BETSY ANN RACE

Cincinnati Packet Noses

By 30 Feet.

22-MILE TEST
Unusual Interest Shown
By Scores in East
Liverpool.

CINCINNATI, O., July 17.—(INS.)
Victorious in the closest river
steamboat race ever run on an Amer-
ican inland waterways course, the
Cincinnati packet "Tom Greene" to-
day held the speed championship for
all steamboats of America's inland
waterways. The local packet finish-
ed only 30 feet ahead of the Pitts-
burgh steamboat "Betsy Ann" last
night in a nip-and-tuck race over a
22-mile course from Broadway land-
ing here to New Richmond, Ohio.

Mrs. Gordon Greene, mother of
Tom Greene, captain of the Cincin-
nati boat, piloted the winning craft.
She is America's only woman steam-
boat owner.

The "Betsy Ann" was piloted by
Frederick Way, her youthful com-
mander and owner.

The championship originated in
lower Mississippi river waters and
was held by the steamer "Betsy Ann"
for many years until wrested away
from her by the fleet Ohio river
packet "Chris Greene" just a year ago
yesterday when the Chris Green fin-
ished ahead of the doughty Missis-
sippi river craft and thereby secured
the possession of a beautiful pair of
gold-tipped elk horns.

"Listen In" On Radio.
Unusual interest was taken by East
Liverpool residents in the race be-
tween the "Betsy Ann" and "Tom
Greene." The former packet follow-
ing its transfer from the Mississippi
trade to that connecting the Queen
City and Pittsburgh, Pa., is well
known hereabouts and many local peo-
ple have taken trips upon it.

The race was noted over the radio
from a Cincinnati station. One of the
announcers, Robert Brown, was sta-
tioned upon the Tom Greene from
which vantage point he gave in detail
the story of the river classic.

MAN, 67, CLASHES WITH FOE, 72

MANSFIELD, O., July 17.—
(INS.)—A 67-year-old man, who al-
legedly struck and seriously in-
jured another man, who is 72, with
a large stone, was bound over to
the Richland county grand jury to-
day when he was arraigned in mu-
nicipal court on charges of assault
with intent to kill.

William McGregor is said to
have lain in wait for Adolph Cas-
tor, following an argument. It is
alleged by police that the former
picked up a large stone and threw
it against Castor, who was serious-
ly injured as a result.

COLUMBUS, O., July 17.—(INS.)—
Judge Henry L. Scarlett, presiding
official of criminal court here, who
will hear the first-degree murder trial
of Dr. James Howard Snook, con-
fessed co-killer, called a meeting
of attorneys for both the defense and
state at 1:30 o'clock this afternoon in
an effort to prevent any unnecessary
delay in the trial.

COLUMBUS, O., July 17.—(INS.)—
With the scheduled trial of Dr. James
Howard Snook, confessed hammer-
knife slayer of Miss Theora Hix, 24,
his sweetheart, only four days distant,
speculation was rife today as to what
would be the next step of defense at-
torneys in their attempt to save the
deposed university instructor from
the electric chair.

Lawyers for the man who slit his
paramour's jugular vein with a knife
to "relieve her suffering," after he
had battered her head 17 times with
a hammer, told Judge Henry L. Scar-
lett, Monday, that they would file a
motion for a sanity hearing for the
man.

The formal motion, according to an
announcement by E. O. Ricketts, one
of the defense attorneys, was to have
been filed yesterday, but no such ac-
tion was taken.

Large Crowds Expected.
The notice does not have to be filed
until Monday and if it is filed then,
the trial will be delayed considerably,
and the sanity hearing itself will like-
ly not take place for three or four
days.

Defense attorneys—Ricketts, John F.
Seldel and C. M. Syfert, of Circleville
—are planning to confer with Dr.

Four "Gas Hawks" Arrested After Police Guns Halt Them

Youths Attempt to Flee
After Knocking
Down Girl.

CLEVELAND, July 17.—(INS.)
—Halted by a round of shots
fired by police as they attempted
to flee after knocking down a
girl and threatening another,
four "gas hawks" were captured
and arrested here early today.

The "gas hawks" were direct-
ing their attention towards Ruth
Miller, 24, and Ruth Stull, 23,
when they were seen by Patrol-

men Joseph Barnes and Walter
Wingate. One of the youths
struck Miss Miller, police said.
The officers opened fire on the
youths, who fled. Command-
ing a passing automobile, Win-
gate and Barnes gave chase.
When two tires on the fugitive
car were flattened by shots from
the police guns, the youths drew
up to the curb and surrendered.
They offered no resistance to ar-
rest.

of education by a three-to-two
vote to places in the East Liver-
pool district schools for the
1929-30 term. The appointees
will be allowed 10 days in which
to sign and return the agree-
ments, the time limit expiring
July 27.

Three Members Sign.
With seven exceptions the con-
tracts are signed by five members
of the board of education. Contracts
of I. A. Hoffman, E. O. Harries and
Miss Maude Baum, elementary prin-
cipals; Misses Fannie Fisher and
Grace McNutt, elementary teachers;
N. F. Lora, member of the high
school faculty, and Earl B. Zook,
high school coach and director of
athletics, are signed by Collin Kin-
sey, J. T. Croxall and R. B. Steven-
son.

President Glenn and C. A. Fergu-
son declined to sign the contracts of
Hoffman, Harries and Lora and the
Misses Baum, Fisher and McNutt on
the grounds that they had not been
recommended by former Superin-
tendent C. S. McVey before he re-
tired and that they were not legally
elected.

Seven persons who were not em-
ployed last year but who have made
application for teaching positions
this year, will not receive contracts.
The state law requires that "new"
teachers must be recommended by
the superintendent before they can
be appointed by the board of educa-
tion. Applications of the seven will
be considered after Superintendent
elect Herbert G. Means comes to
East Liverpool on or about August 1.
Superintendent-Elect Is Visitor.

Means visited East Liverpool yes-
terday to pass upon the text book
question. He approved a part of the
list but asked for a few days' time
in which to look into the rest of the
recommendations.

He returned to his home in North
Bradford, Pa., last night to prepare
to move his family here. He has
leased the Mrs. J. Miller home,
West Fifth street, for his quarters
by Mr. and Mrs. Frank Jones,
who will move to Cleveland.

The board of education will meet
at the high school building tomorrow
night, but indications today were
that it would be a four-man session.
President Glenn, who is visiting in Michi-
gan, is not expected to return before
Saturday, it was stated at his home.

ITALIANS PLAN OBSERVANCE

Ask Fireworks Permit For St. Rocco Day.

In honor of St. Rocco, Wellsville

Italians will celebrate Saturday and Sunday, August 17 and 18.

Headed by Benny Pepe, spokesman, a delegation of Italian residents of the city last night appealed to city council for permission to stage their customary fireworks celebration on Saturday night, Aug. 17, at Central park. Councilmen Peters and Swearingen sponsored a motion instructing the ordinance committee to bring in a resolution at their next meeting granting the permission.

It was estimated that 3,500 or more people from the city, East Liverpool and surrounding territory witnessed the fireworks last summer.

POLICE FUND SHORTAGE HERE

No Money for Third Officer, Imbrie Tells Council.

It will be difficult to employ an extra policeman, Service-Safety Director George Imbrie told council last night, because of the reason that the city has no money.

Questioned by councilmen, Imbrie said that the department was doing its best to cope with the situation, pointing out that Chief of Police Fultz was working virtually every night himself and that firemen were co-operating also.

He further detailed statistics in which he revealed that the expenses of the police department reach \$17,000 or more, annually, and that the \$8,000 received in taxes doesn't begin to meet this figure. As a result, he said, the safety department must step some to pay its way.

"I think the police are doing all right," Imbrie said. "I haven't heard any serious criticism."

"How about the still?" asked Councilman Rell.

"That's the biggest problem today in the United States," replied Imbrie. "Communities everywhere, not only Wellsville, have the same fight on their hands and you're all familiar with the fact that it's a stiff proposition to cope with."

At this point, Chief of Police John Fultz stepped to the rail and declared: "I think I ought to say something." But Imbrie waved him back and continued his discussion with council.

"You can make plenty of arrests,"

said President Clyde Baker, "but getting money out of them is something else. I know, because I've been in the department."

"Yes," added Imbrie, "I was mayor once and Jack Rell was chief of police. And you know, Jack, that you often brought in men who had no money, whose families were destitute, and who were unable to pay fines."

"How does it come the state gets in here and takes out several hundred dollars," queried Councilman Keay.

"They go everywhere," answered Imbrie. They go to every city, village and hamlet in the state and do the same thing."

"And they have an advantage," pointed out Baker, "in the fact that they can use undercover men who are able to operate in cases where police, who are known, can not."

Personals

Mrs. Kathryn Fiber of Arthur avenue, accompanied by her daughter, Mrs. Carl Gruber, of Vine street, East Liverpool, motored to Akron Monday, where they visited the former's son, Guy Fiber, who has been a patient in the Akron City hospital for the past three weeks, recovering from an operation. They were accompanied here by Mr. Fiber, who will recuperate at the home of his sister, Mrs. Gruber.

Mr. and Mrs. Edward Shaffer of Cleveland were visitors here yesterday.

E. C. Heddleston is confined to his home on Boice avenue by illness.

Emmett A. Gerren, Jr., of Los Angeles, Cal., was a local visitor yesterday.

Ralph Fugate, who has been a patient in the City hospital, was removed to the home of his parents, Mr. and Mrs. R. C. Fugate, Campground road.

Mr. and Mrs. Charles Smith and son, Charles, Jr., and wife, of Pittsburgh, were local visitors yesterday.

James Gerren of Florida attended the funeral of Mrs. Emmett Gerren here yesterday.

Mrs. A. C. Fogo, Broadway, with her daughter and son-in-law, Mr. and Mrs. Fred Morrow, Beaver, are visiting at Lake Chautauque, N. Y.

Miss Betty Bonacci of Aten avenue has concluded a week's visit with relatives in Altoona, Pa.

Object to Cressote Poles.

Fred Lowary suggested that garage owners be required to clean off the streets after towing away wrecks. He said he, himself, had swept glass off Lisbon street after collisions on several occasions.

Service Director Imbrie submitted a request from the telephone company for permission to remove old poles and install new poles in upper Broadway.

Council had no objection to the installation of new poles, but did object strenuously to the installation of cressote poles, that is, poles which are cressoted above the ground. They instructed Imbrie to so notify the telephone company, pointing out that when the franchise was drawn up representatives of the company at that time promised that poles would not be cressoted above the ground.

In regard to the Commerce street improvement, Nicholson declared that the proper steps should be taken to determine that water and gas lines under the surface are in good condition so that there will be no need in the immediate future of digging up the street to get at the lines.

Police reports for the months of

March, April, May and June revealed that the arrests each month, respectively, were 44, 29, 40 and 26.

City Council Favors Water Line to Park

Instructs Engineer to Compile Data on Costs; Supply Could be Used by Consumers And For Proposed Swimming Pool.

WELLSVILLE, O., July 17.—Unanimously approving the proposal that the city extend a water main to Hammond park, not only for the purpose of supplying the proposed community swimming pool there but also with the added objective of providing water for domestic consumers, council last night instructed Engineer R. D. McGill and Service-Safety Director George B. Imbrie to obtain data on costs.

The proposition was brought by Dr. J. M. King and Dr. J. S. McCulloch, members of the Hammond park commission.

Addressing the lawmakers, the former pointed out that while something more than \$3,000 had been pledged, inquiries have developed the fact that to construct a pool 35 by 55 feet would require more than \$5,000.

Necessary Funds in Sight.

Dr. King said the commission felt confident of procuring that money but now faced the principal problem of a water supply.

He added that at least one property owner in the Sallenville road was willing to contribute substantially toward the cost if he could but get the water.

If only the pool is to be supplied, Engineer McGill said, a two-inch pipe line will be all that will be necessary and it need not be buried. But if consumers are to be put on the supply, then at least a four-inch cast iron pipe should be recommended, he said.

Naturally, this would be buried and consequently, would cost considerable more.

Dr. King further pointed out that Harry Hammond, donor of the acreage which is now known as Hammond park, also is contemplating the gift of additional ground for the possible erection of a hospital in the vicinity of the park and a water supply then will be imperative.

Hammond park, the commission members replied to questions, is open at any time to tourists.

Charles Peters, chairman of council finance committee, reported that the committee had failed to reach an agreement on the Ernest Clutter wage claim case and the committee was continued.

Auditor Submits Report.

Auditor Fred Eckfeld's report for the month showed the following balances: General fund, \$683.71; safety, \$13.79; health, \$938.15; service, \$74.51; water, \$2,511.14; cemetery, \$2,217.53; library, \$63.21; gasoline tax, \$1,469.00; auto license, \$3,850.64; firemen's indemnity, \$332.06; cemetery trust, \$442.82; Seventeenth street sewer, \$146.50; sinking fund, \$11,387.56.

Legislation preparatory to the improvement of Commerce street was approved by council as emergency measures.

City Solicitor Raymond Knepper submitted a report of a conference with George Suvin, local railroad official, in regard to repairs to the "belt line" sewer. Knepper said the railroad was contemplating the removal of the tracks from their position directly over the sewer and this, if accomplished, would solve permanently the problem of repair work there.

Removal of the tracks, however, depends on whether the company has sufficient right of way space. Repair work on the Eighteenth street crossing, he said, will be done just as soon as materials, which have been ordered, arrive.

Object to Cressote Poles.

Fred Lowary suggested that garage owners be required to clean off the streets after towing away wrecks. He said he, himself, had swept glass off Lisbon street after collisions on several occasions.

Service Director Imbrie submitted a request from the telephone company for permission to remove old poles and install new poles in upper Broadway.

Council had no objection to the installation of new poles, but did object strenuously to the installation of cressote poles, that is, poles which are cressoted above the ground. They instructed Imbrie to so notify the telephone company, pointing out that when the franchise was drawn up representatives of the company at that time promised that poles would not be cressoted above the ground.

In regard to the Commerce street improvement, Nicholson declared that the proper steps should be taken to determine that water and gas lines under the surface are in good condition so that there will be no need in the immediate future of digging up the street to get at the lines.

Police reports for the months of

March, April, May and June revealed that the arrests each month, respectively, were 44, 29, 40 and 26.

to council through Council Swearingen.

Everyone agreed that Forces should not be completed to a and the loss.

However, another of the Kenney trucks was stopped here several days ago. Now, according to Service-Safety Director George Imbrie, negotiations are under way with the company, through their attorney, R. M. Brookes, East Liverpool, whereby, it is expected, a solution of the problem may be reached.

DELEGATES GIVE THEIR REPORTS

The Rev. Harold P. Post and B. S. Purinton, Kiwanis club delegates to the recent convention in Milwaukee, submitted their reports at yesterday's noon meeting of the local unit.

Following the reports, Ira Mellinger, Leetonia, gave a short talk in which he described the work of the Kiwanis.

Announcement was made by Dr. J. M. King that the club's outdoor meeting in the near future would be held at Rock Springs park. Dr. D. H. Beaumont is chairman.

ROTARIANS HOLD PICNIC AT CAMP

Approximately 50, including Rotarians, their families and friends, attended the picnic held by the club last night at the Rotary camp site, near Crystal lake, in Little Yellow creek.

Swimming and other outdoor sports were the diversions following the basket dinner.

W. B. BAKER, 70, VET RAILROAD MAN, RETIRES

Former East Liverpool Potter 40 Years In Service.

ONCE JIGGERMAN

First Job Was On Freight Run At Wellsville.

W. B. Baker, 70, Cleveland, baggage-man and former East Liverpool potter, is among the 132 veteran employees of the Pennsylvania Railroad company who were retired from active service on July 1.

Baker was born in McKees Rocks, Pa., June 24, 1859. At an early age his family moved to East Liverpool where he finished his schooling. He turned his attention to the potteries when he left school, taking up the trade of a jiggerman. After serving in this capacity for several years the condition of his health necessitated seeking other work.

He then turned to the grocery trade, accepting employment as clerk in the T. B. Murphy & Son grocery store, at that time one of the largest stores in East Liverpool. After three years in this store his health was sufficiently restored to enable him to think of trying out at a long felt ambition to railroad. For several years he entertained a keen desire to be around railroad property, as he now states the whistle of a locomotive or the rumble of the trains was always music to his ears.

Uncle Was Conductor.

He attributes his fondness for railroading to the stories told by his uncle, Jerry Baughman, a conductor on the Pennsylvania at that time running between Pittsburgh and Altoona.

He applied to Philip Brunner, trainmaster at Wellsville, on Nov. 20, 1888, for a job. He was advised

he would be sent for when opportunity presented. The long sought-for call to duty came Jan. 20, 1889, and he was immediately delegated to the Conway drag. This was a cold winter's day and one he never forgot.

Reminiscing of the old days he says the boys of the present age have things and conditions much better than the old link and pin period. The following September he was promoted to passenger brakeman. Lou Olliger, later superintendent of the Panhandle division, was his conductor. Olliger was later made trainmaster on the old C. & P. division, now the Cleveland division.

Looks About 50.

The veteran advises that except for a few short periods due to accidents beyond his control he has never been off duty on account of sickness during 40 years of service. His looks and condition today bear out this statement. Despite his 70 years, he scarcely looks over 50.

This exemplary record was also maintained in his conduct as he never suffered discipline or suspension during all these years of service.

Baker is an elder of the Dunham Christian church at Cleveland. Fraternally he is affiliated with the Masonic and K. of P. lodges. In the latter he held the chair of post chancellor and at present is a trustee of Pythian Star lodge No. 526.

He makes his home with his wife and daughter at 6310 White avenue, Cleveland, where he advises he will spend his leisure on the front porch.

From Wellsville Comes Praise For "Orange Root"

Mrs. Adelphia Anderson Tells How "ORANGE ROOT" Delivered Her of 6 Years Constant Suffering With Stomach and Kidney Disorders — Ready At Anytime to Answer Any Inquires About It.

Mrs. Adelphia Anderson, of 617 Twelfth street, Wellsville, O., near East Liverpool, won such a wonderful victory over ill-health that she wants all women suffering as she did to know about it, and will cheerfully answer all inquiries regarding her case. She says: "I had over 6 years endless trouble with my health. Most of my misery was due to stomach and kidney complaints. I had sore, aching pains thru my shoulder and arms, extending thru my back at night. I had to get up 4 or 5 times during the night on account of weak kidneys and bladder. This broke up my rest till I was always weak and had no energy in the morning. Most of my stomach trouble was due to indigestion; the food I ate did me no good and I kept losing strength and weight every week. I got to the place where I did not know what to do, as the bloating and gas pains kept me in constant misery. My system was sick thru and thru, and I quickly became in a weakened, rundown condition. I was told about ORANGE ROOT, and noticed the many statements in the papers from local folks who had been helped by it and made

up my mind to try it myself. Before I had taken many doses there was a great difference in my condition. Now, after taking 4 bottles, I do not have any more trouble with my stomach. I can eat anything I desire and do not suffer with indigestion after eating as before. Gas and bloating have disappeared, and my kidneys and bladder are functioning properly again. I can go to bed and sleep soundly all night long and never get up once during the night. All those awful pains in my back have left, and I feel strengthened and invigorated all over. I am gaining in weight and certainly look like a different woman. The golden Nuggets can't be beat as a laxative and liver regulator. All those suffering as I did should try these wonderful medicines. I will answer personally all inquiries regarding my case." Everybody needs ORANGE ROOT this time of year for it promotes the appetite, purifies the blood, and strengthens and builds up the entire system. Go at once to MATHEWS MEDICINE STORE, and get 3 or 4 bottles of the tonic, a box of the golden Nuggets, take them strictly according to directions and WATCH THE SPEEDY IMPROVEMENT IN YOUR HEALTH. Prices TONIC \$1.25, Nuggets 50¢. All drug stores here and in nearby towns are selling great quantities of these nationally famous medicines.

Maximum Speed Limits

The Boden law, which increases the maximum speed at which automobiles may travel within municipalities from 25 to 35 miles an hour and from 35 to 45 miles an hour in rural zones, will become effective in Ohio on next Sunday, usually a day of accidents.

Although the purpose of the law is to speed up traffic in hopes of decreasing accidents, many of which are attributed to "slow pokes," East Liverpool lawmakers, in an ordinance enacted Monday night, warn that "stepping on the gas" will not be tolerated. To enforce safety regulations and at the same time permit penalties to go into the municipal exchequer instead of the state treasury, the city legislation was placed on the books.

The ordinance provides for a maximum speed of 20 miles in business districts, while 35 miles an hour will be permitted in residential zones. However, the legislation points out that "no person shall operate a motor vehicle in and upon the streets of the city at a speed greater or less than is reasonable and proper, having due regard to the traffic and surface and width of the road, etc."

Fines ranging from \$10 to \$100 for the first offense, \$25 to \$100 for the second infraction of the law and \$50 to \$200 for a third conviction are provided.

Notwithstanding the increase in the speed limit permitted under the new law, motorists should observe common sense rules of safety in operating their cars, especially in residential zones where most of the automobile fatalities occur.

Monster Airship

Reports have been coming out from Germany for months regarding an immense airplane in course of construction at the Dornier company's Swiss plant at Altonghen on Lake Constance. The secrecy has been removed by the Dornier people. It is now known that the great machine may be better described as an air boat rather than an airplane, for an air boat is essentially what it is—a boat built along sharp lines, which is capable of taking off from and alighting upon the sea or any other considerable body of water and is able to cut through and withstand the force of such waves as may be churned up by a storm of near-gale intentions—a boat which is equipped with mighty wings spreading 160 feet, powered by twelve 525-horsepower motors and capable of carrying 100 passengers and its crew of 14 at speeds ranging from 120 to 150 miles an hour a distance of 650 miles or from 70 to 80 passengers at somewhat lesser speed than 100 miles an hour for 900 to 1,000 miles.

The immensity of the new air liner may be appreciated when it is stated that the corridor on the main deck which divides the social rooms from the sleeping cabins is 75 feet long. This deck is exclusively for the use of passengers, the one below it for the storage of supplies, including 800 gallons of gas, three extra motors and extra propeller blades, the motors being so installed in gondolas on the wings that replacements may be made while the liner is in the air. The top deck is for the exclusive use of the officers and crew, and the motors are so controlled that half or all of them may be cut off by one motion.

It has been the rather general view of aviation experts that the carrying of a considerable number of passengers would be limited to dirigibles, at least for some years to come, but if the tests of this big air liner prove it to be all that has been expected, a heavy-than-air machine will be the first to carry anything like a passenger list of a hundred.

Why They Leave Home

The perennial question of "Why Do People Leave Home" has been the subject of much jest, but it is still as much alive as it was the first time that it was propounded. Why do they go?

The missing persons' bureau of the New York police department has answered some of the questions in connection with the problem through statistics compiled from 23,000 cases last year.

The ages of fifteen and sixteen are the dangerous ages—the vanishing ages, as it were. At this age, it is shown that one-third more boys run away from home than girls and the proportion holds true through adulthood. The reason given in most juvenile cases is environment which is unsatisfactory to the growing child and the sex factor is also important in the domestic exodus of girls. The chief consideration causing boys to leave home is search of adventure which the home environment does not afford.

In maturity, the impulses are different. Business trouble is one cardinal reason for male disappearances and spring is the heavy season. The occurrence of the triangle situation and unhappy marriages from which a well planned "run-away" is the easiest way out are also important. The reasons for women are similar and most of them leave home during the intensive shopping campaigns that precede the holidays. That is something for husbands to think about. It is almost a case of "You Can't Win." Shopping distracts them and the inability to shop distracts them. What can be done?

The urge to wander is born into some persons and acquired in others. Thousands of travelers could never be happy doing anything else, but the youngsters, the adolescent boys and girls who run away because they are not understood by their parents or guardians are a pitiful group. Some of them make good eventually, but hundreds of them are plunged into misery that might have been avoided by intelligent guidance and a desire to understand in the home. It is a world of hard knocks and the child who is forced to submit himself to the hardest of those knocks before reaching maturity is deserving of pity.

HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., July 17.—It is doubtful whether any motion picture star in the history of the films has achieved greater popularity than the late Rudolph Valentino. His rise to world-wide fame was due in large part to his playing of the leading part in the picture "The Four Horsemen of the Apocalypse" and although the early scenes of this picture were laid in South America and although the star performer was a man of Latin blood, the effect in the economic sense has not been to create a motion picture industry in South America but rather to cause American films to be by far the most popular of all offered for exhibition there. A new report of the bureau of foreign and domestic commerce shows that 85 per cent of all the motion picture films exhibited in Argentina and Brazil is of American manufacture. Next in rank in Argentina come German, French, and Spanish films while in Brazil the chief competitors are Germany and France.

The development of the motion picture film market in South America—especially in these two most important countries—has formed an interesting subject for speculation among students of foreign trade. Despite the facts that a South American setting and a Latin star gave the business an enormous boost in the Latin American countries with the production of the Valentino picture, no local industry worthy the name has resulted. The people have developed a taste for pictures but they want pictures made in the United States.

Both Argentina and Brazil are countries of exceptional picturesqueness and ventures into producing have been made but with scarcely any success. Specialists of the American bureau of foreign and domestic commerce seem to believe that an important reason for this failure in motion picture production in these countries is lack of finances. Although the countries are rich they appear slow in spending money on film production, hesitating to tie up substantial sums. Thus a film seldom has more than \$5,000 or \$7,000 expended upon its entire production. When this scale of film making is compared with the million dollar productions made in the United States the contrast is sharp.

This South American market is an excellent one for United States film exporters. In 1928 we exported to Argentina 20,161,142 linear feet of film and to Brazil 16,464,410 feet. It will be a long time before this market will be interfered with. The salaries of motion picture directors and of actors in these countries for a month are less in some instances than what is paid American directors or stars in an hour. The Hollywood extra, so far as pay is concerned, is better paid than the South American first-liner. Such a condition is believed to make for a continued good market and an absence of productive competition.

The fact that the ingenuity of American producers has enabled them to counterfeit almost any setting in the world and display on films made in Hollywood or Long Island studios faithful representations of the most exotic scenes sets at naught the value of the true locale. So while the harbor of Rio de Janeiro is reputed to be the most beautiful in the world, it seldom appears save in news films because its likeness can be reproduced so readily by the American tricks of the industry.

The motion picture theaters of Argentina and Brazil are small. These two countries contain approximately 54 per cent of the entire population of South America. There are 972 places where pictures are shown in Argentina and 1390 in Brazil although the former country buys more film.

Brazil is a hot country and the climate has to some extent retarded movie development. Only a few of the big city houses in Rio de Janeiro have cooling systems because the cost—normally about \$125,000—is regarded as prohibitive. The heat and the activity of insects make heavy upholstery undesirable with the result that these Brazilian theaters are not very comfortable. Argentina being so much farther south is much cooler.

In making this study the bureau devoted no little attention to the type of film most generally pleasing to these South American audiences. It is found that the most popular sentimental pictures and those especially classed as "mother films" featuring the relations of mother and child, the idea of the prodigal son, etc.

Bureau officials in this study, lay stress on the strong effects which American films have on these South American peoples and suggest that much can be done to stimulate inter-American good will by judicious selection of the pictures exported.

Questions And Answers

By Frederic J. Haskin.

Stop a minute and think about this fact. You can ask our Information Bureau any question of fact and get the answer back in a personal letter. It is a great educational idea introduced into the lives of the most intelligent people in the world—American newspaper readers. It is a part of the best purpose of a newspaper—service. There is no charge except two cents in coin or stamps for return postage. Get the habit of asking questions. Address your letter to the East Liverpool Review Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. Is it true that the Lindbergh Beacon in Chicago will be visible for five hundred miles? I. F.

A. The Chicago Association of Commerce says that the beacon about which you have inquired is said to have a ray of light that can be seen for five hundred miles. At the time that Mr. Elmer Sperry made a gift of this light to Chicago, it was decided that the Chicago Aero Commission should decide upon the best location for it. The Morrison hotel was chosen inasmuch as it was centrally located and of prominence in Chicago's skyline. However, nothing definite toward the ultimate erection of this beacon has been done up to the present time. At any rate the Lindbergh beacon has not been installed in Chicago.

Q. Can the salary of an employee of the government be garnished? J. D.

A. The civil service commission says it appears that under a decision of the United States supreme court in the case of Buchanan v. Alexander (45 U. S. 20), and under a decision of the Comptroller of the treasury of January 19, 1895, (1 Comp. Dec. 371), an attachment can not be enforced against public money in the hands of a disbursing officer of the government and he is authorized to pay an employee's salary without regard to such attempted levy.

Q. What can be used to deodorize gasoline? L. P. D.

A. The Bureau of Mines says that there is no substance which can be used at home in order to deodorize gasoline. This is done on a large scale with sulphuric acid, and later washing with an alkali. The resulting compound is filtered through fuller's earth.

The East Liverpool Review Offers a Booklet About Salads

The simplest salad adds zest to any meal. There is nothing more healthful and appetizing than the fresh, green garden things which go into a salad, and the cost of them is very small.

NEW YORK Day By Day

By O. O. McIntyre.

SOMEWHERE IN ARIZONA, July 17.—Arizona has an undefinable majesty—the majesty of a Remington Indian gazing at the splendor of a rising sun. Its river beds are crackly dry holes, its cliffs stand sheer and bleak. Life seems squeezed out to the gritty rind. Yet the state is sublime in dignity.

Some day Arizona will find a place in the sun and fulfill the Scriptural prophecy—and the desert shall bloom like a rose. Already Phoenix has become a winter mecca. A magnificent hotel in the Biltmore chain has opened there. Watch Phoenix! Watch Arizona! Watch out for the cable cars!

Flagstaff seems the most important town at which this train, appropriately called The Chief, hesitates. It has been filmed as the background of many movie "westerns" with its bright Angel Cafe, Pete's Pool Parlor and such. You almost expect to see Bill Hart tear through shooting from both hips.

People make themselves conspicuous on coast trains as well as in New York cafes, theaters and night clubs. At Flagstaff a high heeled flapper alighted to parade the platform wearing a bright red silk turban, a pair of those wide legged gob pajamas and smoking a thimble pipe. But it was too late at night to create a panic.

The Mojave, like all deserts, is mysterious and creeping. The desert rats say it whispers at night. We crossed it on a blistering day with Old Sol blinking its fierce blood shot eye. Scrubby patches of sage were almost snow white with coatings of white sand.

Whorls of dust spiral upward with a sudden gust. Here and there a cattle skull, bleached ivory and glistening, stands out stark. Now and then a lean-to painted a bilious green. The desolation and waste are almost suffocating. A dead rattler flaps from the arm of a telegraph pole.

I am not exactly homesick but from the heart of the desert I did send a telegram to the proprietor of my New York hotel reading: "For reasons best known to myself—love and kisses." He may think I'm balmy but if he ever crossed the desert on a scorching day he'll get it.

It seems a lady got left at one of the whistle stops in Arizona. Fellow passengers tried to assure her husband she was somewhere on the

train. "Not a chance," he said. "I've been talking to three pretty girls and she hasn't shown up. She's gone." That bird knows women.

The conventions are taboo in braving the devastating blast of the desert. Train windows are down as protection from sand storms. Through the open compartment doors men sit about gasping in lower sections of pajamas. Ladies are clad only in light jackets and bloomers. But all this is no treat for a former Ziegfeld press agent used to watching rehearsals.

The "greasers" who toil along the railroad tracks in bright yellow shoes and bedtickling overalls have added a dashing new touch to their wardrobe. Their wide Mexican hats this season are white-washed.

At one little desert stop the town consisted of a towering palm tree, a red hut passing for a depot and a shack labeled "Garage and Cafe." Our imperial passenger with the spade-shaped beard, followed by a pile of snooty blonde luggage, got off there. The passenger was incognito, the conductor incommunicado and an old Gallipolis boy became almost inco-something-or-other trying to figure it out.

On European trains at every hand are signs: "Il est dangereux to stick your toe out the window." Not exactly that—but it gives you a rough idea. Coast trains issue no such warnings. One is supposed to know. But one on this choo-choo didn't. He leaned out and collided with passes for his head with something that must have been a prickly cactus in full bloom. It took a roll of tape and all the barber's sticking plaster to fix him up. And the club car gossip declares he was Hollywood bound for a film test.

California might be New Mexico, or Arizona to the casual eye until Barstow on the other side of the desert is reached. Here bright green lawns are spangled with roses and the snow capped Sierras stand awesome in the distance. Orange groves are bright with blobs of yellow. A beautiful spot—California. Ask anyone almost who lives out here. And then run like everything. Copyright, 1929, by the McNaught Syndicate, Inc.

Watch Out in Hot Weather.

With weather conditions as variable as they have been this summer, with the mercury sliding up and down the thermometer, city dwellers must be prepared for sudden changes from fairly cool, pleasant days to brief periods of extreme heat. When the temperature rises, reports of heat prostrations increase.

Consequently men, women and children should be reminded that there are two distinct conditions which may develop from extreme exposure during hot weather. One is heatstroke, commonly known as sunstroke, and the other is heat exhaustion. Since the emergency treatment for the two conditions is different it is essential to know the symptoms of each.

Sunshine produces a high fever. The skin of the patient becomes hot and dry, following the first warning, which is the cessation of sweating. Sunstroke usually attacks a person engaged in some active occupation and, if not relieved, will bring about unconsciousness and death. Immediate reduction of the body temperature is imperative, by means of a cold bath or the rubbing of the patient's entire body with cold water, supplemented by the drinking of cool water if the patient is able to. To prevent sunstroke, a person should drink plenty of water, cold, but preferably not ice-cold. If the normal process of perspiration ceases, this should be taken as a signal to stop any physical activity, drink more water, and if possible take a bath in water cooler than the body temperature.

Heat exhaustion is a condition of fatigue induced by loss of sleep and appetite, as well as the use of alcoholic drinks, during hot weather. In such cases the temperature is normal, or subnormal, and the cold water treatment be avoided. Application of external heat to the body, hot tea, coffee or cocoa to drink and rest in bed, are the remedies for this form of exhaustion.

Aside from these more serious forms of illness, digestive disorders are frequently caused by continued hot weather. Hence the wise person will avoid excess of any sort in eating, drinking or exercise. Yet he should be prepared to recognize symptoms of sunstroke or heat exhaustion in himself and others, and to give relief accordingly.—Detroit Free Press.

Once Overs

By J. J. Mundy.

Do You Judge by External? When you meet a man and learn his occupation do you immediately rubber stamp him as being of a certain degree of intelligence in accordance with the average man in his line?

Without giving any consideration to his ideals, the character, his principles, as an individual, do you put him in a certain list? Do you ever give any thought to the fact that while a man may be occupying a humble position he may have aspirations and characteristics as praiseworthy as yours?

Are you not too much impressed by outside appearances, by what a man follows as a source of livelihood? There are men doing menial work about your place whose integrity is absolute, whose honesty cannot be doubted.

These men in lowly position may be making more in their spare time than they do in their regular jobs.

The janitor in your building may be a man of better principles than you and he may be holding that menial position to give himself time for the real work which brings him in more money than you have guessed. (Copyright, 1929, International Feature Service, Inc.)

"SPEAKEASY" RICH EYE-EAR APPEAL

The Fox Movietone production of Edward Knoblock and George Rosner's well known stage success, "Speakeasy," now at the American theater, contains an abundant supply of all things necessary to make an up-to-the-minute entertaining picture.

Primarily, "Speakeasy" is an all talking Fox Movietone production which brings to the screen not only the voices of the players but every natural sound associated with the location filmed and the situation of the story related.

The narrative is crammed with action and dramatic punch as well as generously sprinkled with comedy and adroitly interspersed with thrilling highlights.

There is a mad race through the heart of New York's business section; two boxing combats staged in the world famed Madison Square garden; a fight to the death in a celebrated speakeasy, all visually and audibly shown as the determined heroine desperately tries to save the man of her choice from the clutches of the wolves of the underworld.

Lola Lane and Paul Page portray the leading romantic roles with Helen Ware, Henry B. Walthall, Stuart Edwin, Warren Hymer, Sharon Lynn.

NEWSPAPER STORY SCORES AT STATE

"Gentlemen of the Press," now at the State theater, is real life transferred to the screen.

This all talking picture from the Paramount studio, opened its run to an audience that laughed and wept and thrilled to its great artistry. It is artistry of plot, of direction and of action. It is drama dripping with emotion yet admirably restrained and true-to-life.

News gathering has always been a synonym for romance. The real struggles behind the scenes in the minds and hearts of those men who follow the "game" with such devotion, has always been the hidden chapter that "Gentlemen of the Press" with that great actor, Walter Huston, in the leading role, uncovers. Huston's performance is flawless; it is splendid. And a cast of real artists, artists who have earned their laurels on the legitimate stage before entering pictures, supports him admirably.

The direction is perfect. The settings and action are true-to-life. Technically the picture is a marvel. Artistically it is an achievement that Paramount can view with pride.

'SHOW BOAT' RINGS BELL AT CERAMIC

One of the most moving romances ever told on the screen, as well as one of the most spectacular productions ever made, is offered patrons of the Ceramic theater, where Universal's \$1,000,000 sound and dialogue super-film, "Show Boat," is the attraction.

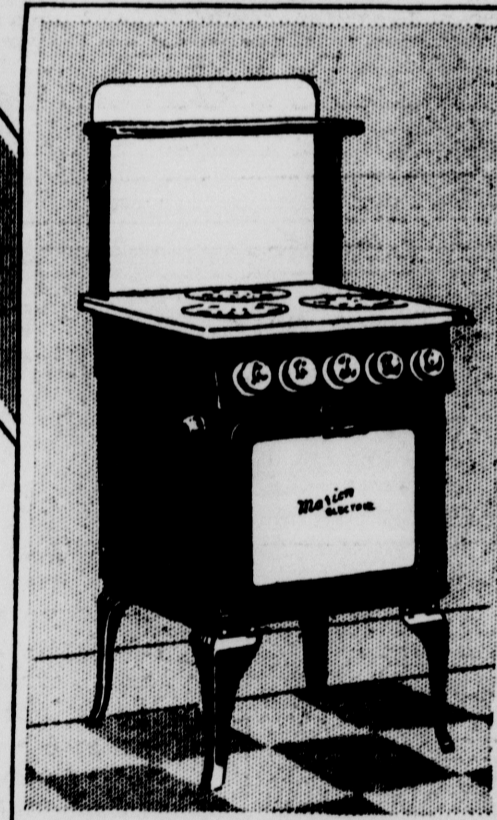

This colorful epic of the Mississippi Valley and of Chicago in the last generation, embodying the glamorous love story of Magnolia, the young show boat girl played by Laura La Plante, and Ravenal, the romantic young gambler played by Joseph Schildkraut, is based upon the internationally famous novel of the same name by Edna Ferber.

Included in the presentation are the motion picture highlights of the celebrated New York musical production, "Show Boat," staged by Florenz Ziegfeld with noted Broadway stars. This interpolation, which enables theater-goers actually to see and hear the New York production in their own theater, was made possible only by special arrangement between Carl Laemmle, president of Universal, and Ziegfeld. Helen Morgan and Jules Bledsoe are the outstanding Ziegfeld stars heard.

"Show Boat" itself, which also is superbly presented in sound and dialogue, was made by Harry Pollard, the famous director who was responsible for the Universal masterpiece, "Uncle Tom's Cabin." The company supporting Miss La Plante and Schildkraut includes such favorites as Otis Harlan, Emily Fitzroy, Alma Rubens, Jack McDonald, Jane La Verne, Neely Edwards, Ellis Bartlett, and many others.

In its music, "Show Boat" is a veritable anthology of America's popular music of the last half century. From the old fashioned favorites of the '80's, rendered by a strident steam calliope and by melodious dark voices, down through the "coon-song" and "ragtime" age to the present Negro spiritual era, the music is well played or sung and gloriously reproduced.

"SLENDER LINES OF CHIC"

PATTERN 1737
The Review 15c Practical Pattern

Smart, cool and delightfully slimming, is the model shown today. It is extremely simple, too, relying on the well cut lines and carefully chosen fabric for its beauty. The surplice bodice, the side-pleated skirt and the snug girdle are interesting features.

Design 1737 would be lovely made of printed voile, georgette, silk crepe or dimity. Dark grounds are very smart this season. The ruffling that finishes the neck closing may be organdie, lawn or georgette.

May be obtained only in sizes 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3 yards of 40 inch material and 1 yard trimming.

This model is easy to make. No dressmaking experience is necessary. Each pattern comes to you with simple and exact instructions including yardage for every size. A perfect fit is guaranteed.

Patterns will be delivered upon receipt of FIFTEEN CENTS (15c) in coins carefully wrapped or stamps. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE wanted.

Our LATEST FASHION BOOK will be sent upon receipt of TEN CENTS in coin. Address all mail and orders to The Review Pattern Department, 243 West 17th Street, New York City.

Mrs. James Johnston Entertains.

Mrs. James Johnston entertained members of the Ruth Elder club last night at her home, Mapletree street, when games, music and dancing were diversions. A guessing contest was won by Mrs. Albert Bright, Jr., and Mrs. Carl Shaub. Club honors were awarded Mrs. Johnston.

Sweetpeas and nasturtiums were used in the luncheon appointments. The hostess was assisted in serving by her mother, Mrs. John Gray, and sister, Mrs. Melvin George. Covers were arranged for 15.

Mesdames Carl Shaub of Wells-ville, Albert Bright Jr., Ella Hepler and John Gray were guests.

The next meeting will be held Thursday, August 1, at the home of Mrs. Melvin George, Pennsylvania avenue.

Past Noble Grands Attend Picnic.

The Past Noble Grand association of Ceramic Rebekah lodge No. 286, held a picnic yesterday at Rock Springs park. Covers were arranged for 30 at dinner. The park amusements were the pastimes.

The next meeting will be held Tuesday, August 20, the place to be announced later.

Mrs. Charles Poe Hostess.

An outing was held by members of the Jolly Dozen club yesterday at Thompson park. Mrs. Charles Poe of Florence street was hostess. A guessing contest was won by Mesdames U. S. Cunningham and Alfred Walker. Gifts were presented Mrs. George Miller in honor of her birthday anniversary.

A watermelon eating contest was won by Mrs. Harding Connell.

The hostess was assisted in serving by Mrs. Harry Watters and Miss Eva Kibbe, covers being arranged for 17.

Mrs. Clarence Moore was a guest.

In two weeks the club will be entertained with a picnic at Thompson park by Mrs. Frank Salmor of Seventh street.

Ben Hur Initiation Tonight.

Crookery City court No. 111, Pride of Ben Hur, will initiate a class of candidates tonight at 7:30 o'clock in the Sons of Veterans' hall.

Baptist Sunday School Outing Held.

Ideal weather enabled a large number of the members of the First Baptist Sunday school, West Fifth street, to attend their annual outing at Thompson park yesterday afternoon and evening.

A program of athletic events held the attention of many until dinner was served at 6 o'clock.

Compelled to be absent from the city until Friday, Rev. A. H. O'Brien, the pastor, was unable to attend.

Friendship Class Picnic Postponed.

The picnic for members of the Friendship class of the Pleasant Heights Baptist Mission, which was to have been held Friday at Thompson park, has been indefinitely postponed.

Mrs. Charles Frederick Entertains.

Thirteen members of the Loyal Sons' and Daughters' class of the First Church of Christ were entertained last night at the home of Mrs. Charles Frederick, Cadmus street. The meeting was in charge of the teacher, John Scott.

A class reunion will be held later in the season.

Refreshments were served by the hostess, assisted by her daughter, Ruth, and son, Richard.

SLATZ RANDALL AT PARK TONIGHT

SLATZ RANDALL and his Brunswick dance band which recently completed a long run at Minneapolis, Minn., will appear at Virginia Gardens, Rock Springs Park, tonight.

Randall and his orchestra are right at the peak of their success. Always a stellar organization, the band has risen sensationally during the past two years to a recognized position among the truly great "name" bands of America. In doing so, it has not lost the unaffected cordiality and "dash" which establishes the orchestra with dance crowds everywhere it plays. Irresistible dance music, presented with exceptional versatility and an ever ready desire to please, is the formula for Randall's phenomenal success.

Nowadays the public has a way of classifying orchestras as either a "hot band" or a "sweet band." Most of our present dance orchestras, even the leading ones, are susceptible to that pitfall in that they are effective in one phase at the expense of the other. Randall has definitely proved himself one of the few exceptions to this criticism, by rendering all types of dance music with equal ability and enthusiastic originality.

The Brunswick recording company considers Randall the best attraction they have today.

Keeping up with the Joneses

A larger income may make it possible for the Joneses to have a much finer home than the Browns—but the Browns can own just as fine a car. For it does not require a big income to own a De Soto Six. And with a De Soto Six the Browns have the pride and satisfaction of driving a Chrysler-built automobile—with the ability to out-perform most other cars on the road.

De Soto Six is obviously smart and stylish; up-to-the-minute in mode. And it has not taken the motoring public long to find that De Soto Six is also exceptionally comfortable and easy riding, powerful, speedy and safe. Record-breaking sales figures for a first-year car are proof enough of its established and growing popularity.

Combine these qualities with low price, low maintenance cost and assured long life. The reason is plain why those who insist on smartness and performance, but must consider economy, are finding De Soto Six the most satisfactory car.

MEDIATOR ROLE IN CHINA FOR U. S. IS HINTED

Reply to Soviet Ultimatum Conciliatory
In Tone.

NANKING NERVOUS

Washington Feels Other
Nations Should Try
To End Dispute.

By ALFRED MEYER,
International News Service Staff
Correspondent.

SHANGHAI, July 17.—The United States may be asked to mediate the dispute between China and Soviet Russia growing out of the seizure of the Chinese Eastern Railway by China.

China's reply to the Soviet ultimatum is conciliatory in tone.

While it is generally believed that an armed clash will be averted, Nanking, the seat of the Nationalist government, is nervous and there was a feeling of mixed anxiety and tension in Shanghai.

Acceptance Unlikely.

WASHINGTON, July 17.—(INS)—While the American government would like to see the Chinese-Russian dispute over China's seizure of the Chinese Eastern Railway amicably settled by arbitration, it feels the efforts toward conciliation should be made by nations having diplomatic relations with both China and Russia.

The United States does not recognize Russia and should it accept the role of arbitrator and exchange notes with the Moscow government, state department officials explained, it would be placed in a position tantamount to de facto recognition of that country. The likelihood that the Washington government would accept the role of arbitrator was considered extremely remote.

China Fills Reds' Jobs.

PEIPING, (PEKING), China, July 17.—(INS)—Despite Soviet Russian protests, China began today to consolidate Chinese control of the Chinese Eastern Railway. The positions formerly held by Russians who were dismissed and deported on the ground they were circulating Communist propaganda, are being filled with others.

A Harbin dispatch said the city was excited over unconfirmed reports regarding the activities of Russian Red troops along the Manchurian frontiers.

WOMAN IS FREED IN OHIO SHOOTING

ZANESVILLE, O., July 17.—(INS)—Eather Allen Little, Frazeyburg school teacher, who is alleged to have shot and wounded her brother-in-law, Dr. C. C. Garrett on the evening of June 5, and who was indicted by the Muskingum county grand jury, today is free from all charges in connection with the shooting.

Dr. Garrett appeared before Judge T. F. Ribble in common pleas court here, and stated that the shooting was accidental.

The judge then nolleed the charges.

Dr. Garrett, who is a member of the school board in the Little Muskingum valley town, was shot in the left leg. His wound was not serious.

OHIO MAN KILLED BY FAST TRAIN

TOLEDO, O., July 17.—(INS)—An unidentified man was ground to death beneath the wheels of a Pennsylvania passenger train here today. The body was so horribly mangled that identification will be difficult.

Albert VanBuren, a garage employee, discovered the tragedy when he found a leg along the tracks.

ILLINOIS MAN BEATEN TO DEATH

WOODSTOCK, Ill., July 17.—(INS)—Henry Menge, city employee of Woodstock, Ill., was found beaten to death in the old fair grounds on the outskirts of this city today. Menge carried between \$400 and \$500 with him, friends told police. The pockets of the man had been rifled and his throat was slashed.

Twain, the famed humorist and author and the other by the late Captain Calhoun, of Georgetown, Pa., just across the river from Smith's Ferry, Pa.

"This race brought Mark Twain and Captain Calhoun in close personal intimacy," declared Kelly in discussing the event. "Some years afterward Mark Twain visited Captain Calhoun and renewed their friendship."

"Mark Twain on that occasion," Kelly declared, "came to Smith's Ferry by train from Pittsburgh. There he was met by Captain Calhoun who took him to his home across the river for a few hours.

Another East Liverpool man interested in the boat race yesterday was S. P. Ankrim of the Ceramic cafeteria, West Fifth street, who also recalled the famous race between the Lee and the Natchez.

"My father, O. F. Ankrim, who lived at the time near Marietta, was on one of those boats and aided materially in the work of keeping up the speed," he said. "He knew Mark Twain well. I have often heard him tell that the crew quit firing the boilers with coal and resorted to burning great stacks of salt side pork and pine knots which happened to be on board the vessel."

The "Betsey Ann" has been making East Liverpool for several years. It was for many years the champion speed boat on the river.

SITUATION TENSE

L. M. Marakhan, vice-commissioner for foreign affairs at Moscow, Russia, and former ambassador to China, wrote the note demanding China apologize or suffer the consequences for her act of seizing the Chinese Eastern Railway and arresting Soviet officials.

REPORTS FROM STOCK MARKETS

BY W. S. COUSINS
International News Service Financial
Editor.

NEW YORK, July 17.—Fairly aggressive buying went ahead during the first two hours of the stock market today for principal industrial issues, notably the coppers and merchandising and motion picture shares. The gains recorded by them were substantial. The rails for the most part were irregular, reflecting the diversion of interest from them back into other sections of the list, and the oils dragged as a result of the cut in Pennsylvania Crude Oil prices and another new high record in crude oil.

Call money renewed at 12 per cent. Farm implement stocks were features of early trading, rising rapidly in response to brisk buying. International Harvester mounted 3 5/8 points to 117 1/2. Its best price for all time, and J. I. Case jumped 11 points to within a shade of a new record level. Kennecott led the coppers with a 2 point rise to 86 1/4 and Anaconda was up about that at 113 1/4. Miami improved a point or so to 41 1/4.

Cleveland Produce.

CLEVELAND, July 17.—Butter:—Extra 40c; standard 40 1/2c; market firm.

Chicago Grain.

CHICAGO, July 17.—(INS)—Grains opened higher today. Wheat was up 2 to 3 1/4c; corn 1/4 to 1 1/4c and oats 1/2 to 1 1/4c. Opening prices: Wheat:—July none; September: \$1.44; December \$1.48 to \$1.49 1/2. Corn:—July \$1.01; September \$1.02 1/4 to \$1.04 1/4; December 96 to 97c. Oats:—July none; September 49 to 49 1/4; December 52 to 52 1/4.

U. S. SHIP SAVES 40 ON STEAMER

LONDON, July 17.—(INS)—A United States destroyer rescued the 40 passengers from the North German Lloyd steamship Derflinger after the liner became stranded on a rocky reef near Chailien Tao, China, said advices from Shanghai this afternoon. The passengers were landed at Tsingtao.

A GREAT crowd enjoyed the sight of a small bull, fighting for its life against a large African lion, in the Juarez bull ring.

Large sums were bet. The lion, starved for a week, jumped on the back of the bull, tearing at its neck. The bull shook it off, stamped on it for five minutes, the lion leaped back into the cage, the fight was over, everybody happy.

BEFORE you condemn "Mexican cruelty" observe the crowd consisted chiefly of Americans. And ask yourself whether a lion fighting a bull is worse than one man fighting another in our prize ring.

W. T. LOGAN, Christian missionary returning to Buffalo, from the headwaters of the Zambesi, tells of a little bird that makes a hole in the river bank clay, fills it with fruit, lets it ferment and develops alcohol.

At the proper time the bird returns to its little clay vat, takes a drink and will fight anything.

Satan, of course, educated that bird, far back in the Garden of Eden, very likely.

MRS. YING KOA and her husband, arrested, will be sent to China for bringing \$1,000,000 worth of opium into this country, packed in little tin boxes in Mrs. Koa's 11 trunks.

China could do this country a favor by showing mercy to Mrs. Koa, on condition that she would reveal the American drug peddling combination for whom the opium was intended.

VICTOR BERGER BADLY INJURED

MILWAUKEE, Wis., July.—(INS)—Run down by a street car, Victor L. Berger, former congressman from Wisconsin and nationally prominent socialist, today was in a critical condition.

Taken to the Emergency hospital, he was found to have suffered a possible skull fracture, internal injuries and scalp wounds.

The accident occurred while he was attempting to cross a street two blocks from his home here. On account of his age, 69, it was feared he may not recover.

Berger was the first socialist to sit in congress. He was elected in 1901 and since then has served five terms. He was chosen in three elections before congress seated him in 1921, the delay having been gained by opponents who charged he opposed the United States' part in the war.

TOLEDO, O., July 17.—(INS)—A coroner's investigation is to get under way here today into the death of two men, Charles Irwin, 32, Wauseon, O., and Vernon Moore, 33, Bolivar, Pa., who died from injuries received when the crane which they were operating collapsed here yesterday.

Both men were buried in the wreckage and steam, escaping from broken boiler pipes, meted out a terrible fate to the men.

They were employees of the American Bridge company.

Moore's body, it is expected, will be sent to Bolivar for funeral services.

SALINEVILLE OIL CO. INCORPORATED

The Reynard Oil company, Salineville, was incorporated under the laws of Ohio today with capital stock of \$15,000. The incorporators are Dr. C. A. McCullough and Sherman Carter, Salineville, and George P. Williams, of East Liverpool.

The company owns two producing oil wells about three miles from Salineville.

OHIO GIRL DIES FROM GUN WOUND

MARTINS FERRY, O., July 17.—(INS)—Miss Beulah Stidd, 22, of Shadyside, near here, died today from a bullet wound which she received July 1. It was said to have been self-inflicted.

KING GEORGE GAINS STRENGTH

LONDON, July 17.—(INS)—King George again passed a comfortable night and his condition continues satisfactory following the operation to relieve an abscess in his chest. It was stated at Buckingham Palace today.

MOVIE MAGNATE INJURED IN CRASH

Number of Technical Flying Schools Rivals That of Recognized Colleges

Instruction in flying may soon become general enough to be included in the curriculum of academic schools. For the present, a great many students are taking summer work in flying at the various flying fields. Above, left is a group of students from the Massachusetts Institute of Technology, members of the R. O. T. C., receiving instruction in the handling of a machine gun mounted on an airplane at the Mitchell Field, Long Island, school. Lieut. Carl Alberi is the instructor. Above, right, is Elwood Dempsey, left, of the University of Illinois, noted track star, getting parachute instruction from Lieutenant Alberi.

Federal Department Lists 406 Places For Air Students.

There are now in the United States two-thirds as many flying schools as there are colleges and universities of higher learning. This was shown by a recent compilation by the commerce department, which lists 406 civilian flying schools in this country, while bureau of education figures give 647 colleges and universities.

In California today there are fifty flying schools and only twenty institutions of other learning. This state leads all the others in flying schools, just as it does in planes and pilots.

Illinois is second, with thirty-seven training schools for pilots. New York has thirty-one and Michigan thirty. Pennsylvania, on the other hand, still leans toward the high classical education, having fifty-seven colleges and universities (the most of any state in the Union) and only twenty flying schools.

There are twenty-one flying schools in the city of Chicago alone and twelve in Los Angeles.

It costs almost as much to go through the full course of a good flying school as it does to spend four years in college. A 200-hour course, qualifying a pilot for a transport license and a good job, takes from one to two years and costs from \$2,000 to \$6,000, depending on the school.

Of course, some of these so-called schools consist of nothing more than

WICKERSHAM DRY PLAN WINS FAVOR

WASHINGTON, July 17.—(INS)—Prohibition officials today were in principle agreed with Chairman George W. Wickersham, of the president's crime commission, who informed the governors' conference at Groton, Conn., that the states should bear a sizeable share of the burden of enforcing the dry laws.

Doubt was expressed, however, that any modification of the dry laws would be necessary. Assistant Secretary of the Treasury Seymour Lowman, in charge of prohibition, called attention to the provisions of the Eighteenth amendment giving the

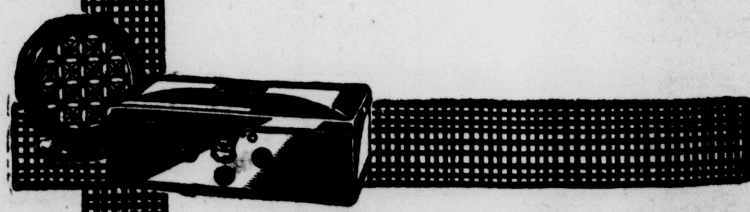

states concurrent jurisdiction with the federal government in enforcement activities. There appeared to be nothing that would force the states to cooperate however.

PHENOL "SPILL" ON WAY HERE

City officials at noon today took steps to combat a phenol "spill" which is expected to reach East Liverpool via the Ohio river at 8 o'clock tonight. Chemist Larkins will use the new chlorinating equipment in coping with the "bad taste." State health board officials advised Service-Safety Director Moore that phenol dumped here by Youngstown mills was on its way here via the Beaver and Ohio rivers.

THREE BUILDING PERMITS ISSUED

MIDLAND, Pa., July 17.—Three permits for buildings in the Steel City have been issued by Borough Clerk Mrs. C. K. O'Hara.

Eunice Stevenson will erect a two-story dwelling and garage in Beaver avenue, between Twelfth and Thirteenth streets. James Azzarella plans to build a double garage in Woodlane between Fourth and Fifth streets.

Michael Trbovich will construct a two-story brick and tile store room and

apartment building in Midland avenue, between Fourth and Fifth streets.

MISS MCCARTHY HONORS GUESTS

MIDLAND, Pa., July 17.—Miss Eleanor McCarthy entertained friends at her home in Industry Heights last night in honor of two relatives, Misses Grace and Katherine McCarthy, Renova, who are spending the week there.

Music and dancing were diversions. Refreshments were served by Miss McCarthy, assisted by her mother, Mrs. O. H. McCarthy. Places were arranged for 12.

The guests were Misses Margaret Weir, Mae Edmiston, and Mary Alice Craik, and Robert Wentz, George Cable, John Rineaman, Herbert Carpenter, Donald Musser and Jackson McGee.

MAN IS JAILED AFTER ATTACK

Paul Thomas, Rochester, Held on Cutting Charge.

ROCHESTER, Pa., July 17.—Charged with felonious assault and battery by Joseph Cutrona, Water street, Paul Thomas, 58, also of Water street, has been committed to the Beaver county jail in default of \$500 bond following a hearing before Justice E. B. Steffel.

An argument between Cutrona and Thomas ended when the latter struck Cutrona with a corn cutter, inflicting gashes on his back and left shoulder, police say. Cutrona's wounds were dressed at the Rochester hospital.

BOY SCOUTS SEE PARADE MOVIES

MIDLAND, Pa., July 17.—Motion pictures of the parade held in the Steel City July 4 as part of the Independence Day celebration were shown Monday night to members of Boy Scout troops in the Lincoln park by A. W. Gittins, Boy Scout adviser. The scenes were taken by W. P. Benter.

Alex Della Valle, Scout Master, will confer this week with Charles E. Felton, executive Columbiana county, O., Scouts, concerning the offer for the Steel City boys to use Camp Eagleton, near Lisbon, O., during August.

Homeworth

William Thomas King, 57, formerly of Homeworth, died at his home in Alliance Saturday. He was a member of the Sons of Veterans. He leaves his widow and two sons, Hugh W. King of Cleveland and Wayne W. King of Baltimore, Md., and one sister, Mrs. J. E. McGrath of Alliance. Funeral services were held at the home Monday afternoon in charge of the Rev. Homer Moore.

WED 82 DAYS, ASKS DIVORCE

Eighty-two days after they were married, Henry K. Sullwold of 23 Pershing avenue, Salem, filed an action for divorce in common pleas court against his wife, Anna Sullwold of Salem, R. F. D. They were married on April 25.

Sullwold declared in his petition that his wife continually found fault and nagged at him and the marriage was "entirely incompatible." He says he was compelled to leave the defendant on July 4.

THREE MARRIAGE LICENSES ISSUED

A marriage license has been issued to Wilford Stratton of Youngstown, a salesman, and Miss Helen Dessel, a bookkeeper and daughter of Mr. and Mrs. George Dressel, of Salem.

George Cummings, of Youngstown, a golf professional, and Miss Margaret Fleming, daughter of Mr. and Mrs. Frank Fleming of Columbiana, R. F. D., have been granted a marriage license.

Walter Berlin, of Alliance, a machinist and Miss Thelma Schultz, daughter of Mr. and Mrs. Charles Schultz, of Homeworth, also have been licensed to wed.

COUNTY RECEIVES \$12,000 GAS TAX

A check for \$12,000 gasoline tax has been received by County Auditor Elmer E. Walker and credited to the county road repair fund. This makes a total of \$22,000 so far received from the state from this source this year.

During 1928 a total of \$50,000 was credited to the road repair fund from gas tax money, while in previous years the settlements totaled only \$10,000.

Sues for \$1,718.49.

Claiming there is \$1,718.49 due him on a note for the construction of a residence, David O'Hanlon has filed an action in court against Ethel Florence and G. R. Fitzgerald, West Eighth street, East Liverpool.

Real Estate Transfers.

Real estate transfers have been filed for record:
Guy M. Wells to Sam Pappas, lot 98 in Land Company addition, Lisbon \$20.

Rose B. Mellinger to Della Castle, lot in Brown's addition, Salem, \$10.
David E. Shamblen and wife to Paul Mead, lot 247 in Clark & Michals' addition, Wellsville, \$1.

William Weigand to Basil E. Rollins, one-fourth acre in section 21, Liverpool township, \$225.
Albert C. Freitly, lot 36 in Trimble Heights addition, Salem, \$1.

Burt Capel to Edwin D. Wright, 17.06 acres in section 23, Butler township, \$10.

Olaf V. Todd and wife to Nettie A. Crouse, lot in Stiver's addition, Columbiana, \$1.

Notice Housewives

To facilitate the collection and disposal of garbage during the summer housewives are requested to refrain from the dumping of dishwater and other liquids into garbage receptacles. Cans should also be provided with covers to keep them free from rain water.

Further co-operation in the collection and disposal of garbage may be given by wrapping table and vegetable scraps in paper before placing it in garbage containers. Collections have been handicapped recently because of water in the garbage and if the above instructions are followed wagons will be enabled to resume their regular schedules.

THE BOARD OF HEALTH.

FRIENDS HONOR FRANK SULTNER

Seventy-eight friends attended the third annual reunion of former associates of Division No. 14, Order of Railway Conductors, at the Sultner home, Green street, here. Sultner was presented with a leather billfold and a purse.

For several years Sultner, formerly employed as a Pennsylvania railroad conductor, has been incapacitated. Among his friends, the second Sunday in June is known as the Sultner Reunion day.

CHANGES PLANNED IN COURT ROOM

Contract for the remodeling of No. 2 court room has been awarded by the county commissioners to John A. Morrow of Lisbon who will begin the work on Monday. His bid was \$4,891.53.

The room will be divided, and a second floor will be built. A portion of the rear of this room will be used by Miss Alice Glenn, court reporter. The second floor will be used in part for the law library and a new jury room. The present library will be used by the sheriff, and latter's present office will be added to the two rooms now used by the clerk of courts. There is also to be a storage room on this new second floor for court records and files.

There will be no change in the location of the present jury room. The new jury room will be for the No. 2 court. Miss Glenn and her assistant, Miss Minnie Higgins, will also occupy the stenographer's room located on the second floor between the office of the sheriff and the law library.

State Librarian Visits in County.

FOUR YEARS OF NEURITIS SUFFERING CURBED

Popular Newell, W. Va. Young Lady Almost at the Point of Despair — Finds Relief in Owa-Ton-Na.

Young and old, men and women in all walks of life praise this fine old Indian Remedy in kidney, liver, stomach and bowel disorders, rheumatism, neuritis, nervousness and a general run down condition of health. Many who have reached the point of despair, feeling that there is no further help for them, have found in Owa-Ton-Na a new way to health. Not through the use of dangerous, harmful drugs but by nature's own roots, herbs, barks and berries. Owa-Ton-Na is an Indian formula which has been successfully used for generations among the Indians. It now can be had in East Liverpool at Carnahan's Drug Store, 114 East Sixth street, where a special laboratory representative is explaining to eager health seekers the benefits to be derived from its use. It does not perform miracles nor is it a cure-all. Its aid in the elimination of harmful poisons from the system results in a giving nature a chance to rebuild normal health.

Miss Birdie Smith, Jefferson street, Newell, W. Va., has had such remarkable results with Owa-Ton-Na that it is small wonder that her many friends comment on her enthusiasm yet when one knows the discouraging time that Miss Smith has had, even at so young an age, it is not surprising that she is enthusiastic about this fine old Indian Remedy. Time after time she had tried different medicines and expensive treatments trying to rid herself of the condition which was breaking down her health.

Discouraging indeed are the constant disappointments of unsuccessful treatment. She felt that her only hope lay in the consultation of expensive specialists. Owa-Ton-Na has made this unnecessary and once again Miss Smith enjoys the abundant health which is her right in the Springtime of life. She says:—"Had I only known about Owa-Ton-Na long ago, I could have saved myself no end of misery. Kidney, liver and stomach disorders were breaking down my health."

"Food of any kind gave me no end of distress, gas and bloating spells would crowd my heart and make me short of breath. Food just lay in my stomach like a lump of lead and didn't seem to digest. Constipation made this condition worse and a sluggish liver made me tired, worn out and nervous. My kidneys, too, gave me a great deal of trouble. Bladder irritations made it necessary for me to get up several times each night to relieve this condition."

"The joints all over my body seemed to have sharp, piercing pains and I was afraid that rheumatism would get a hold on me. I have seen so many people who suffer with this condition and have suffered so much with it that I was convinced I was going to die."

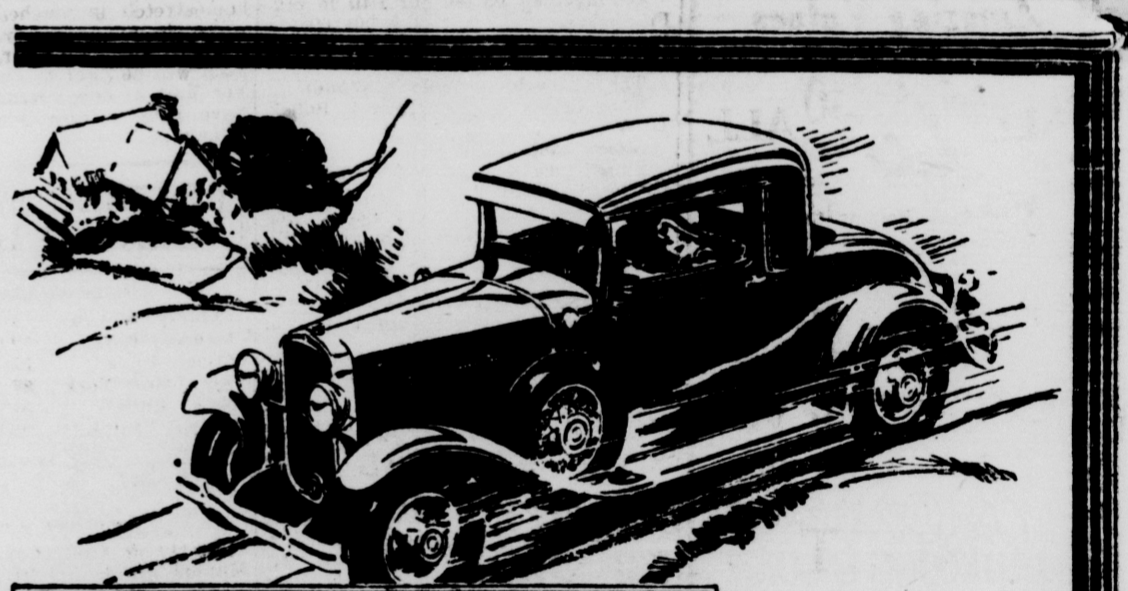

MISS BIRDIE SMITH

could avoid it. I got so discouraged, I didn't know what to do. I had tried everything that had been recommended to me yet nothing seemed to do me any good.

"One day I called at Carnahan's Drug Store and learned about the good that Owa-Ton-Na was doing in so many cases in East Liverpool and as a last resort I tried even this. Much to my surprise the medicine seemed to act differently than anything I had ever taken. In just a few bottles, I felt like a different person. Food digested better, no more gas and bloating spells, my bowels began to act regularly and kidneys more normally. Backaches and headaches disappeared and gradually I could feel a difference in my rheumatism."

"Pains were not so severe and it wasn't long until they were completely gone. I just can't believe that any one medicine could do as much for me as Owa-Ton-Na has. I can now go to bed and sleep the whole night through, getting up in the morning refreshed and once again enjoy myself. Would that I could tell all sufferers personally about this fine old Indian Remedy. Words can not express the good I have received through its use."

Cases like this of Miss Smith's are not unusual in the history of Owa-Ton-Na. Time after time it has been successful where all other methods tried have failed. If you are suffering why hesitate another day? Why not at least give this harmless remedy a trial. A trial bottle is usually sufficient to prove its merits to you personally. Call at Carnahan's Drug Store, 114 East Sixth street and have a good talk with the special laboratory representative. This service is free and incurs no obligation. Owa-Ton-Na is also sold at Carnahan's East and Newell, W. Va. stores—Ad.

Argentine "Hope" Steps Off On Title Trail With DeKuh

Campolo, Some of Them Say, Has the Stuff; Well, He'll Have To Show it Tonight.

By Davis J. Walsh.

NEW YORK, July 17.—According to Jack Johnson, Abe Attel and Johnny Dundee, old-timers who ought to know all about it and probably don't, the next heavyweight champion of the world will be exposed to public view tonight. He is Victorio Campolo, the gay Caballero, who goes forth with naked hands and slays his own beef. Victorio's noble skull rears itself 6 feet 6 1/2 inches into the atmosphere, he weighs around 220 pounds and he is supposed to be faster than an old time soubrette.

Unless he is very fast, this data simply means that Victorio's 220 pounds will fall from a height of 6 feet 6 1/2 inches. There hasn't been an available specimen like that since Willard withdrew himself from circulation.

The Caballero will meet Arthur de Kuh, another big one, over a distance scheduled for 10 rounds at Ebbetts Field. It won't go 10 minutes if this pair decides to become at all resolute about it. De Kuh has a great punch and a chin that reaches out and clams for attention. What Victorio has, I don't know, but it is supposed to be plenty.

They are touting him to halt, abate and otherwise discontinue De Kuh in five rounds and, if he does that, Sharkey and Schmeling won't be able to hold their championship fight without him. De Kuh is only one of the champs, of course, but it takes better than a chump to knock him non-plussed. Sharkey couldn't do it in 10 rounds just before the gripping encounter with Stripling. So Victorio hasn't chosen a sap for himself tonight.

Of course, if he is as good as they say he is, then this Argentine is better than Firpo and it doesn't make

any difference whom he chooses. Neither does it matter much how big he is. The notion came into vogue after Willard's debacle that the man who weighed more than 210 pounds and exceeded two inches over six feet was too big to fight. Godfrey changed all that. I don't know how much fighting he does but one thing I'll guarantee. He isn't too big to win.

Give these big ones speed, as Campolo is said to have, and stake them to a punch in both hands, another of his alleged assets, and there isn't the slightest reason for them to go wrong. Johnson didn't and he looked bigger than a baboon in there.

Nobody, as a matter of fact, really knows much about the hombre. He was quite a man as an amateur heavyweight and recently he knocked off Roberto Roberti. Still, if you don't do that, the rules say that the ball isn't in play and you have to go back and start all over again, with an added penalty of stroke and distance.

BRAVES END BUCS' STREAK OF WINS

BOSTON, July 17.—Bob Smith held the league leading Pirates to four hits and the Braves defeated Pittsburgh, 4 to 1, here yesterday. All the Braves' runs came with none out in the first. Richbourg and Maranville walked and scored on Sisler's double. Harper got an infield single and scored with Sisler on Bell's triple.

The only Pirate run was in the sixth when Hill singled and L. Waner just missed the right field bleachers with a triple.

COLONELS EYING FOURTH PLACE

With something akin to downright laziness, the dopsters, who are wont to cast predictions as to the doings in the American Association pennant race, are remaining silent today, firstly, because there's really not much to make a ballyhoo about, and secondly, because it is the middle of July, the sun is shining brightly, and the day is warm.

However, those celebrated and oft-times wrong forecasters are indolently watching Louisville in fifth place and idly speculating as to whether the Colonels from the Blue Grass state can, by hook or crook, get four straight wins and displace Indianapolis in fourth position.

But somehow, whenever a sport writer tries to boost the Louisville aggregation, he wakes up the next day and finds that the team has disappointed him, so predictions about the Colonels must be made and accepted with reserve.

Louisville split a doubleheader with Minneapolis, which is in third place, in the doings yesterday, by 11 to 8 and 11 to 10 scores, the latter one being the game Louisville lost.

Kansas City, the league leaders, downed Toledo with a score of 5 to 3. Columbus, the second Ohio team in the pennant scuffle, also lost its game. Milwaukee trounced the Senators, 9 to 3. Toledo in seventh, Columbus is sixth and Milwaukee is last. St. Paul, second berth team, which is trying heroically and otherwise to slide into first position, came out on top in its pitching duel with Indianapolis by a 4 to 1 score.

The next two days will see no changes in the standings.
Watchers of the flag race, who are called sport fans, are suffering from ennui, in the broad sense of the word. The race is just at the turning point and all of the teams are headed downstream for home.

It is an unexciting period and the period may be prolonged until the homestretch is reached and the mad scramble which always comes about the first of September, begins. The race will be over by the first of October and a new champion will then have been written into the baseball annals.

LAWLESS WINS FROM GORILLA

CLEVELAND, July 17.—Although he was knocked to the floor three times, Bucky Lawless, Syracuse, N. Y., outwitted, overcame that disadvantage to win the referee's decision in his 12-round fight with Willie "Gorilla" Jones, of Akron, here last night.

Rosy Rosales, Mexican heavyweight, knocked out Babe McCargory, of Oklahoma, in the seventh round of their scheduled eight-round semi-final.

Noots Antley, Georgia lightweight, defeated Billy Inman, Cleveland, in six rounds. Lynn Jordan, middleweight stablemate of Jones, was credited with a technical knockout over Tommy Hamby.

George Ingram, Columbus, won from Rudy Hayes, Cleveland, in four rounds, and Tony Canazoni, Cleveland bantam, outpointed Johnny Goldman, Akron.

ASHLAND YOUTHS IN JUNIOR GOLF

CLEVELAND, July 17.—Two Ashland youths, Bob Enck and Dick Lutz, survived the first round of play in the 1929 district junior championship golf tournament and were among the first to tee off in the second round today.

Enck, who is only 17 years old, was the medalist. He shot a brilliant 75 in qualifying. Young George Alves, jr., son of the Acacia professional, was the only other qualifier to break 80. Alves turned in a 77.

Lutz, the other Ashlander in the second round, ranked third in medal play, with an 80. In the first round he defeated Alex Ogilvie, jr., Beechmont, 4 and 3. Enck defeated Carlin Short, Madison, 3 and 2.

Enck was matched with John Jaeger, Sleepy Hollow, and Lutz with Caryl Way, Mayfield, in the second round.

AT CHICAGO—Steve Smith, Bridgeport, Conn., lightweight, stopped Frankie Barco of California (10).

HAVANA STARS AT NEWELL TODAY

Inter-city league hostilities will be suspended tonight when the Newell Boosters go into action against the Havana Red Sox at Newell park.

The Katies were originally scheduled against Homer Laughlin on the Newell diamond but this contest is postponed in favor of the exhibition tilt, arranged as a benefit for the Newell Boosters' association.

The Red Sox-Boosters tilt will start at 4 o'clock. In view of ideal weather conditions, a large turnout is expected.

New Heavy to Show His Stuff

Victorio Campolo, gigantic Argentine gaucho, is the most recent heavyweight hope of South America and, boy, maybe he isn't big. The lad is taller than Jess Willard and stronger than Luis Firpo, the Bull of the Pampas. Just look at him, in the picture at the right. Some idea of his strength is shown at the left where he holds Humbert Fugazy, fight promoter, on his shoulders as though Humbert were a mere child.

Must Biff Two to Set New Mark

Seven in Four Straight Games is His Goal.

By Les Conklin.

NEW YORK, July 17.—Chuck Klein, leading home run hitter of the major leagues, will be shooting at a new record when the Phillies play the Cubs in Philadelphia today. If the slugging outfielder of the Quakers can smack two four-baggers today he will set a new mark of seven home runs in four consecutive games. If he gets one today he will tie the present record of six in four.

Klein, who hit three homers in Monday's double-header, tied the record of five homers in three consecutive games when he connected for round-trippers twice in yesterday's game. He also tied the modern record of three home runs in three consecutive times at bat, as his third homer was made in his last time at bat and yesterday's pair came in his first two appearances at the plate.

Bobby Lowe of the Boston hit four homers in as many consecutive times at bat in 1894. Of the modern crop of stars, Babe Ruth, George Kelly, Tillie Walker and Elmer Smith hit for the circuit in three consecutive official times at bat, although bases on balls broke up the continuity in some instances. And Ray Caldwell of the Yankees, before the advent of the jack rabbit ball, hit a homer on three consecutive appearances as a pinch hitter.

Klein now has 28 homers and leads Mel Ott, his nearest rival, by three. Ruth hit his 21st yesterday and is only one behind Lou Gehrig, the American league pacemaker. Ruth's homer and triple, accounting for five runs in all, featured the Yanks' 11 to 7 win over Detroit.

The pennant races remained unchanged, as the Athletics beat Cleveland in the tenth, 7 to 5, and the three National league leaders—Pittsburgh, Chicago and New York—all tasted defeat.

The Pirates, who had won eight straight, got only four hits off Bob Smith, the reformed Boston infielder, and lost, 4 to 1. Klein's two homers helped the Phillies down the Cubs, 6 to 5, and end their long slump.

Sylvester Johnson of the Cardinals blanked the Giants, 5 to 0, and paved the way for the downfall of his mound rival, Fitzsimmons, by knocking a homer.

Cincinnati came to life and two-timed Brooklyn, 5 and 3 and 7 to 2. Lucas and Rixey outpitching Vance and Morrison.

Errors by West and Goslin in the tenth cost Washington a 6 to 5 defeat by the White Sox.

The Red Sox stepped out of character and swamped the Browns, 11 to 2. Heinie Manush, St. Louis outfielder, got two hits and replaced Jimmy Fox as the American league batting leader. Milt Gaston, the Boston pitcher, retired the last sixteen batters in order.

YANKEE STARS OFF TO EUROPE

NEW YORK, July 17.—Four of America's premier track and field athletes will sail on the President Roosevelt today to compete in several meets in Europe. They are Dick Rockaway, Ohio State hurdler; Leo Lermond of Boston, national mile champion; Fred Sturdy of Yale, national pole vault champion, and Leo Sexton, Georgetown's all-round star.

Eddie Tolcan, crack negro sprinter of Michigan, and Pete Bowen, of Pittsburgh, national quarter-mile champion, will sail on Friday and will join the other four men abroad.

O.G. accepts Challenge at stronghold of its rivals

Show-down test . . . at Roosevelt Field, New York, reveals the true cigarette preference of Aviators.

The question is often asked: "Does OLD GOLD pick out its strongholds, the places where it out-sells its three rivals, when it makes its 'Concealed Name Tests'?" The answer is "No!" OLD GOLD doesn't seek "set-ups" but "show-downs."

As a two-year-old youngster, "O. G." couldn't be expected to match "sales totals" with the three veteran brands, each from 12 to 16 years old. Give a young fellow time! But when it comes to comparing quality . . . that's "O. Gs." meat.

For example, look what happened at Roosevelt Field, New York's greatest airport. Here, "O. Gs." rank third in sales. But when 68 Roosevelt aviators and their mechanics took the "Concealed Name Test," OLD GOLD won, hands down, as the most appealing cigarette! The score, as audited by certified public accountants, was: OLD GOLD 23 first choices . . . Brand "X", 13 . . . Brand "Y", 17 . . . Brand "Z", 15.

On your Radio . . . OLD GOLD—PAUL WHITEMAN HOUR . . . Paul Whiteman, King of Jazz, with his complete orchestra, broadcasts the OLD GOLD HOUR . . . every Tuesday, from 9 to 10 P. M., Eastern Daylight Saving Time, over entire network of Columbia Broadcasting System.

New Mystery Story of "Gray Phantom,"

Loveable Outlaw.

By Herman Landon

Copyright by Street and Smith Corporation.

Up the stairs he sped, his pulses beating fiercely from exertion and the sheer ecstasy of flight. Again he turned blindly toward a door, but it was locked. He tried another, but it refused to open, and already an approaching din warned him that the pursuers would soon be at his heels. Luckily there were no lights up here, and the danger of being struck by a bullet was correspondingly less. Again he turned toward the stairs, but a scurrying form intervened. Something clutched at his legs, but he shook it off with a vigorous kick. Escape in the direction of the remaining flight of stairs was cut off, so he turned again into the hall, dashing down its length until he came to a door. The nearest of the pursuers were only a few feet behind, and the door was his only chance of evading immediate capture. It opened readily, and in a moment he was inside, slamming it shut in the face of the leader of the pursuit. With an exclamation of relief he let Helen slide from his arms, then quickly shot the bolt. But his relief, he well knew, was only temporary. Unless there should be a second door, or a window offering easy access to the roof or to the ground, his capture was only a question of moments. Already there was a tumultuous pounding on the door, warning him that an attempt to force it would be made before long.

Helen was trembling violently, though he knew it was from excitement rather than fear, and for a little he stood beside her, steadying her.

"Won't they break in the door?" she asked as they listened to the din outside.

"We'll be away from here before they do," he assured her, voicing a hope he was far from feeling. "Wait here a moment."

He groped along the wall, fumbling for an electric switch in the hope that the light might reveal a convenient exit. He found a knob, pressed it, and then, as the light flared up, a gasp of astonishment escaped him.

A little dazed, he ran his eyes over a familiar scene. The door he had entered at random while seeking a way of escape in the dark had led him into the blue room, the chamber of mystery that had been the scene of Craig's death.

"Open, or we smash the door!" bellowed a voice on the outside.

Helen, smiling bravely, looked into his troubled eyes, as if seeking an explanation of the startled look that had leaped into his face the moment he recognized the surroundings. Without a word he hurried across the floor, parted the shutters, raised the window, and looked down upon a sheer expanse of wall. It was at least thirty feet to the ground, a dizzying plunge. With Helen in mind, Vanardy could not contemplate it without a shudder.

She stepped over to him, laid a hand on his shoulder, and pointed to where the horizon was streaked with gray, luminous wisps, heralding the approach of dawn. "Look, Phantom Man!" she murmured. "There are your colors in the sky. Oh, those beautiful streaks of gray creeping up out of the blackness! It's a good sign."

Vanardy smiled, but a fresh onslaught on the door made him turn. Absently, while cudgeling his wits for a safe way of escape, he closed the window and the shutters. Alone, he might have attempted the hazardous drop from the window, but with Helen it was impossible. Neither could he leave her behind, although she had nothing to fear from Culligore, for the black guard ruffians represented by Whipple were probably at this very moment hatching new plots against her safety. Doubtless they were by this time desperate enough for any infamy.

A violent crash sounded at the door. Evidently the men outside were ramming a heavy object against the panels. Any moment the door might collapse. Despairingly Vanardy looked about the room, his eyes coming to rest on the fireplace, with its accumulation of dead ashes in the grate and the huge stone slab in front. There seemed to be no way of escape anywhere, only solid walls that mocked him with their impenetrability. For once, it seemed, the Gray Phantom was hopelessly at bay. The din outside the door, growing in violence every moment, appeared to be sounding the dirge of his final defeat.

Suddenly his head went up. A new thought came with startling vividness. The murderer of Craig had found a way out of this very room. He had made his exit without using either the door or the window, for both had been securely locked when the servants broke in. It stood to reason there must be an exit of some sort, so ingeniously hidden that the most careful search had failed to reveal it. A new, faint hope sang a grimly exultant tune within him. The uproar at the door was a challenge to the Gray Phantom's wits. The trust and faith shining in Helen's brown eyes were another. If an exit was to be found, the Gray Phantom would find it.

A new crash and a splintering sound drew his eyes again to the door. A few more powerful thrusts and the heavy panels would collapse. His glance slanted downward, in the direction of the narrow rift at the still which he had pointed out to Bell. It seemed incongruous, but the shadowy suspicion that had dawned in his mind when he found it kept tantalizing his imagination.

Another thunderous crash came, warning him that the crisis was at hand. Bowman must have arrived, and probably he had brought several officers along, for it sounded as if a dozen men were participating in the commotion. Doubtless they all felt certain that there was no escape for the Gray Phantom this time. Vanardy, absently jingling a few coins in his pocket, felt anew the challenge to his resourcefulness.

Helen came forward, her eyes bright and tender. "I want you to know," she whispered, "that, whatever happens, I have faith in you."

He smiled, and then a vaguely puzzled look came into his face. Of a sudden he became aware that the coins in his pocket were producing a discordant sound. It was a trivial thing compared with the terrific tension of the moment, but he was in the state of mind where minor details are magnified. A moment longer he listened to the one false note in the clinking of the coins as he rattled them in his pocket, and then he drew out a small handful of silver. Among the rest was the little Chinese brass coin.

He stared down at it with a dull, wondering expression, vaguely conscious of Helen's puzzled look, and then a white, dazzling light of comprehension seemed to leap up before his eyes.

A loud, splintering roar sounded at the door. Helen crept closer to him, her hand nestling within his arm. For an instant both stared at the door, momentarily expecting it to crash in. Then, with unwonted brusqueness, he disengaged his arm. He dropped the coins back into his pockets—all but the Chinese brass piece. "We'll win yet!" he exclaimed, springing forward with a light and eager step.

"I just knew it!" cried Helen. "The Gray Phantom always wins!"

When the Door Gave.

At length, with a hard, splitting crack, the heavy oak panel collapsed and fell inward. Bowman, stout and red-visaged, mopped his perspiring face and, reaching a hand through the opening, slipped back the bolt and turned the key in the lock. At a twist on the knob the door flew open.

The constable and Culligore entered simultaneously. Behind them followed two village officers, a couple of half-dressed and hysterical servants, and finally Harry Bell and the lawyer. The latter two had merely looked on while the door was being besieged.

Culligore came forward with a briskness oddly out of keeping with his habitual gait. He swept the room with a single glance, then came to a dead stop. With equal abruptness Bowman halted in his tracks and stood gaping and pop-eyed.

"He's gone!" said Culligore in a dazed tone.

"Gone!" echoed Bowman in a small, throaty voice that contrasted ludicrously with his sturdy build. For several moments the two stared at each other, then Bowman pulled himself together and bawled an order to his subordinates to guard the door.

"Betcha we'll get him yet," he stoutly declared. "The scoundrels can't have got out of the room. Look! Them shutters are locked, and we know he didn't get out through the door. Old Nick himself can't get out of a place that there's no way out of."

Pledge to the Public on Used Car Sale

- All used cars offered to the public shall be honestly represented.
- All Studebaker automobiles which are sold as CERTIFIED CARS have been properly reconditioned and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.
- Every used car is conspicuously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.
- Every purchaser of a used car may drive it for five days, and then if not satisfied for any reason, turn it back and apply the money paid as a credit on the purchase of any other car in stock—new or used. Not only to the public, but also to The Studebaker Corporation of America, whose cars we sell, we pledge adherence to the above policy in selling used cars.
